

COLLABORATION MAKES THE DIFFERENCE

Great Commission Movement of Liberia

August 2019

Greetings!

We are once again privileged to share some of the victory stories that unfolded since we last sent out our newsletter. We are indeed humbled, but not because of these great stories. Our humility is based on your unflinching collaboration with us as we continue to proclaim the Gospel of Jesus Christ.

Collaboration with the Liberia Medical & Dental Association (LMDA)

Presently, the Nation Healthcare System is experiencing some logistical challenges affecting medical institutions by impeding their ability to provide good health services to our people. Therefore, from the 28th -29th of March, Great Commission Movement of Liberia in collaboration with LMDA held two days of medical outreach in Central Liberia, Gbarnga. This outreach was graced by some of the renowned medical practitioners who provided free medical services in two of the referral hospitals, including Phebe and C.H. Dunbar hospitals. Our collaborative initiative as a movement provided wheelchairs, surgical gloves, medical beds & beddings, Lou packs and assorted medical items. We also contributed used clothes and toys for the kids on the wards. According statistic obtained, one thousands one hundred and sixty one patients received free medical treatments.

"I thank all the doctors here today. They have come to help us. We are sick and we don't have money for drugs or medicine but today, they gave us free medicine and they examine us. We are happy". Elderly woman.

"I am so glad that I did not have to pay for gloves to be examine today. I usually paid for gloves each time I visit this hospital. Today, I am going home without paying anything for all the treatment and medications received. I really Praise God for you people and hope you will always come ".— Patient

Great Commission Movement of Liberia contribution significantly to this medical outreach. They are one of our strategy partners and have joined us for the outreach". Dr. Emmanuel Ekyinabah. President, LMDA

Collaboration with Non-pastors

Over one hundred fifty university students attended Legacy 2019. Legacy is an annual student's conference that is held once every year to train students to share their faith (personal evangelism) and discipleship. The foremost priority of Legacy is to help develop and motivate each student to take absolute responsibility to reach their targeted audience (campus) with the Gospel. Since they are tomorrow's leaders, we also emphasize on godly characteristic that will influence them serve with distinguish upon their enrollment in the market place.

Angels Rejoice at Legacy

Legacy always goes beyond training and character development. Participants are motivated to put into

practice the training immediately, through an evangelistic outreach. Within an hour or two, three hundred five community dwellers were exposed to the Gospel through several evangelistic tools: the Four Spiritual Laws booklet and Jesus Film tablets (using short film). One hundred twenty three persons prayed to receive Jesus Christ; thirty seven of the one hundred twenty three persons prayed to rededicate their lives; importantly, twelve Muslims were exposed through the Jesus short film and eleven prayed to receive Christ.

“I was really excited for the very first time to share the Gospel and see a quick response by leading somebody to Christ”.

“I was very radical against Christians as a Muslim when they visited our community to share their Gospel. I am really motivated since the outreach today to go back to my community. Please pray for courage and boldness “ .

By faith we saw angels rejoicing, according to God’s word which says, “...Angels rejoice over one sinner who comes to repentance...”

Prayer Request

These victory stories will not be told without your collaboration. Praise God for your collaboration through your finances and prayers. Our local supports have significantly dropped over the last eighteen months due to bad economic. Pray for God immediate intervention and not be distracted

We travel to the Northern part of Liberia Nimba County (Tappita & Ganta)in October to conduct Family Life Conference . Please pray for travel, good participation and follow up. Pray for at least wo HomeBuilders small groups in Tappita to begin

Praising God for your collaboration and continue to enjoy good health & protection

Medical doctors; dentists and other health workers
